

To Whom It May Concern

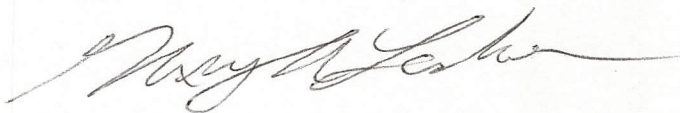

RE: Recommendation for William (Bill) Robbins, PI

I can highly recommend Bill as a PI. He has a lot of experience and he really knows how to dig up information and connect the pieces. His methods fascinated me.

I have employed Bill for about 9 months in 2012 and 2013 as a PI. I owned one company and had sold another company and I discovered that in the one I sold an employee had committed a very large fraud on me. I needed information to take to court. Bill was recommended to me by the individual who bought my business and helped me identify the fraud.

Bill found information that was used to start both civil and criminal law suits. The Criminal Justice System is pretty resource poor, I needed the help. *In addition he helped me break a Chapter 13 bankruptcy by the individual who committed the fraud.*

Finally, Bill's methods and the thoroughness of his investigation drew praise from two separate law enforcement agencies
